PROFILE

Motivated professional offers expertise in HTML5, CSS3, JavaScript, and Query. Adept at troubleshooting and resolving complex technical issues, while consistently meeting deadlines and client expectations. Proven ability to quickly learn and apply new technologies and techniques to enhance user experience and enable website optimization

Hardworking, highly motivated professional eager to lend combined knowledge and skills to enhance business performance. Operates well in both individual and team capacities, leveraging seasoned work ethic to quickly adapt to different processes and drive company objectives. Resourceful and results-driven with a passion for growth and efficiency to meet company needs and increase service value

EXPERIENCE

● I HAVE WORKED WITH VARIOUS COMPANIES LIKE :

AAFXINVESTMENT

Backend Engineer

- I Created the database and I did setup the CRUD responses in which a user can interact with the database .
- I did setup a parameter by which transactions are made, these transactions are secured , safe and are gotten back where needed .
- I also created a means by which a user can refer another person and are given a bonus after whoever was referred successfully signs up .
- There is also a verification Panel setup by me to validate if you're truly the owner of a particular data and I achieved all this using Mern stack .

I ALSO WORKED AT LOCTECH INSTITUTE

As a Full stack web developer

- At Loctech Institute I worked as an intern where I built a website called adventure which is a movie checkout site .
- I also built an e-commerce site at loctech that had to do with user registration and login , storing of the products in the database and also the products chosen by the user to buy inorder words products added to cart and many more functions.
